Pull the banner up...

5

and tension!

Single...

or double sided.

A Lite-weight champion

– full of display advantages

This elegant new banner stand blends the best of all worlds – extremely light weight, low-cost, user-friendly and versatile. From point-of-purchase applications to exhibition use, the addition of the new BannerUp Lite assures a Mark Bric solution for all your banner display needs.

Quick change

The stands have our Quick-Change banner mounting system. Just attach the two self adhesive strips to the back of the graphic (top and bottom) and slide into the aluminium rails.

Easy to carry

All units come conveniently packed in a nylon carrying sack. An elegant and protective carrying bag with room for two single sided units is available as an extra.

Flexible in size

BannerUp Lite comes as standard in 880 mm width, but special sizes can easily be delivered on request. Choose between a single and a double sided model.

Flexible in height

The telescopic pole provides tension at any height between 150 and 230 cm. (165 to 245 cm for the double sided solution). Just twist the pole clockwise or anti clockwise.
